

3. Match the bone names listed in the key choices with the following bone descriptions. (Note that some descriptions apply to more than one bone.)

- B, K 1. Connected by the frontal suture
- I, K 2. Connected by the lambdoidal suture
- K, M 3. Connected by the squamous suture
- K 4. Connected by the sagittal suture
- O 5. Cheekbone
- K 6. Superolateral part of the cranium
- A 7. Contains olfactory foramina
- J 8. Posterior part of the hard palate
- I 9. Posteriormost part of the cranium
- A 10. Has two turbinates as part of its structure; also contributes to the nasal septum
- I 11. Foramen magnum contained here
- L 12. Site of the sella turcica
- M 13. Houses hearing and equilibrium receptors
- B 14. Forms the bony eyebrow ridges and roofs of orbits
- F 15. Forms the chin
- F 16. The only bone connected to the skull by a freely movable joint
- M 17. Site of the mastoid process
- F 18. Contains the mental foramina
- C 19. Neither a cranial nor a facial bone
- A 20. B 21. G 22. L 23. Four bones containing paranasal sinuses
- A 24. Bears an upward protrusion called the crista galli
- L 25. Keystone bone of cranium
- E 26. Tiny bones with openings for the tear ducts
- N 27. Bony part of nasal septum
- M 28. Site of external acoustic meatus

Key Choices

- A. Ethmoid
- B. Frontal
- C. Hyoid
- D. Inferior conchae
- E. Lacrimal
- F. Mandible
- G. Maxillary
- H. Nasal
- I. Occipital
- J. Palatine
- K. Parietal
- L. Sphenoid
- M. Temporal
- N. Vomer
- O. Zygomatic
